Welcome to the Accessibility and Usability Resource Site!
Overview
The Accessibility and Usability Resource Site (AURS) is provided in response to QM members' requests for access to resources to assist in course design that "reflects a commitment to accessibility and usability for all learners" (General Standard 8).
The topics discussed in this site include alternative text (alt-text), captioning, hyperlinks, readability, and more. Special topics and additional resources and information will continue to be added.
Meet the AURS Moderators!
Select from the topics below to participate in the discussion and access resources.
Universal Design for Learning
Alternative Text
Video Captions and Audio Descriptio...
Hyperlinks
Readability: Color Choice and Contras...
Accessibility of PDFs
Accessible Design in Learning Manage...
Cognitive Accessibility (Special Topic)
General Resources: Accessibility and ...
