# Navigating the Complexities of Assessing Learning Outcomes in Multi-Campus Online Programs

Kristoffer Rees, Ph.D.

Office of Online Education (OOE)

Office of Collaborative Academic Programs (OCAP)

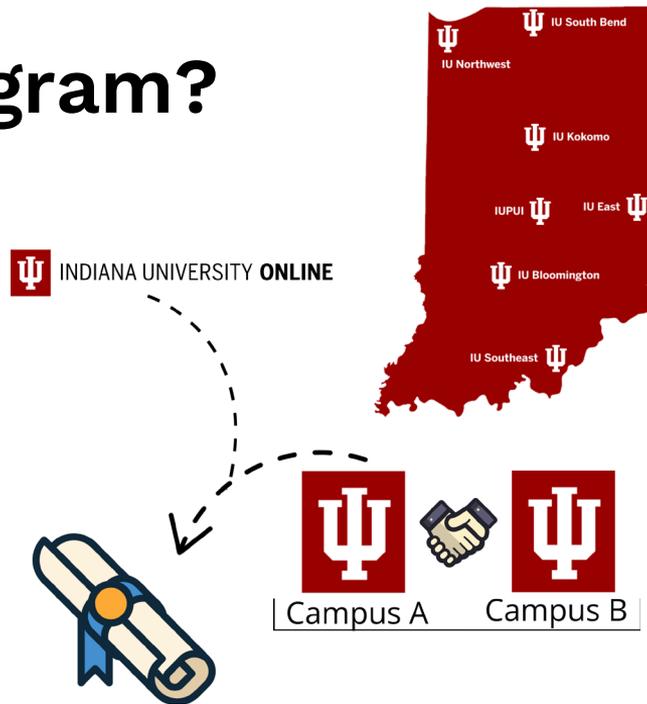

**QM Connect 2023**

# What is a Collaborative Program?

2 (or more) IU campuses agree to combine their resources to offer a collaborative degree

IU Office of Online Education (OOE) offers the support staff to facilitate the management of the degree program through the Office of Collaborative Academic Programs (OCAP)

INDIANA UNIVERSITY **ONLINE**

# | What Does OCAP Do?

## Curriculum Team

Coordinating  
teaching  
schedules across  
campuses

Prerequisites and  
degree  
requirements

## Assessment Team

Creation of  
assessment tools  
(PLOs, rubrics,  
etc)

Annual  
assessment  
reports

OCAP contains two main support functions:  
Curriculum and Assessment

The Faculty Committees, comprising of representatives from each participating campus, maintain control of the degree programs

# Multi-Campus Isle

## Alignment Table Cave

You must traverse through Alignment Table Cave to proceed along the journey. Trying to reach Report Pointe any other way will leave you lost and stranded.

## Course Listing Pass

Travel through Course Listing Pass, but beware! The rocks in this pass are treacherous and prone to shifting without warning!

## Culture River

Carefully cross Culture River. It is a difficult and trying path to take, as 7 different sources feed into this river.

## Outcomes Range

As you travel further into the island, you will find the mountain range: Outcomes Range. This path is dense with many peaks, but the road is less perilous.

Beware leaving the mountain range, it is easy to take a wrong turn into No-Response Canyon! Getting lost here may delay your journey for weeks!

## No-Response Canyon

## Reflection Ridge

After leaving the Outcomes Range, take a breather on Reflection Ridge. If you are there at the right time, the sun will guide you toward your next location without fail.

## Compile Oasis

Once arriving at Compile Oasis, take a moment to gather your strength and ensure you have all that you need for the journey ahead.

## Review Forest

The treeline of Review Forest is a welcome sight after the long journey. You have just to cross the small forest to reach Report Pointe! They say that the trees in this forest may have uplifted roots that might slow you down. Watch your step.

## Schedule Rock

The treacherous isle of Schedule Rock! Avoid getting trapped on this landmass because getting off again is tricky and may involve extra diplomacy with the locals.

# Hazard: Schedule Rock

## Schedule Rock

*The treacherous isle of Schedule Rock!  
Avoid getting trapped on this landmass  
because getting off again is tricky and  
may involve extra diplomacy with the  
locals.*

# First Leg – Background Forest

## Alignment Table Cave

*You must traverse through Alignment Table Cave to proceed along the journey. Trying to reach Report Pointe any other way will leave you lost and stranded.*
