

QUALITY MATTERS

QM

Are We Using the QM Research Library to Its Full Potential?

Ericka Hollis, Ph.D. Candidate & Senior Instructional Designer
QM Research Colleague Review Manager
@ethollis

Outcomes for the Session

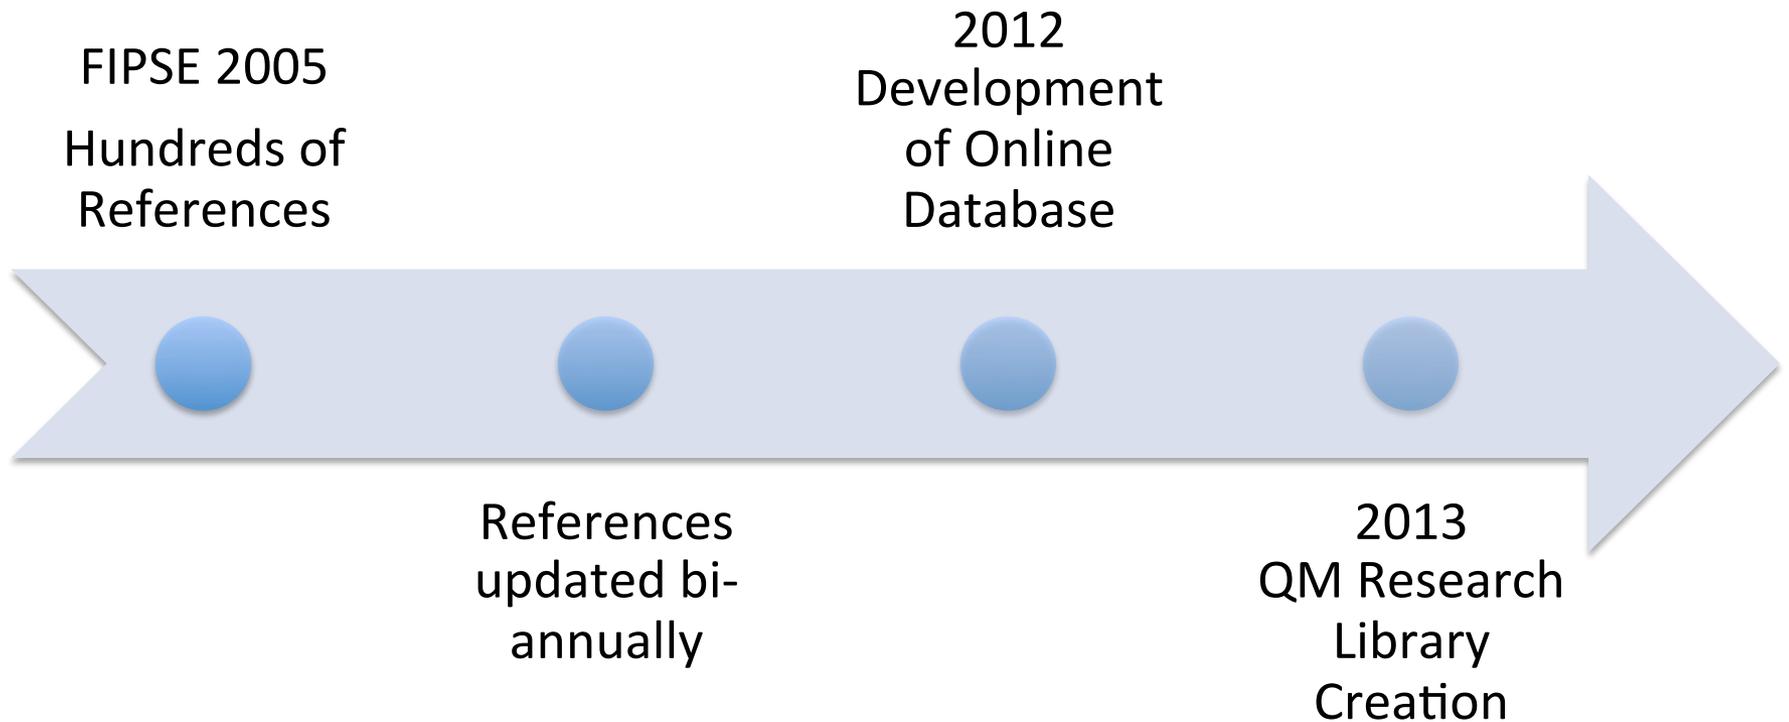

- Summarize how the Quality Matters Research Library history.
- Locate the Quality Matters Research Library.
- Explain the article submission process for the Quality Matters Research Library.
- Identify the research databases and journals queried for Quality Matters article submissions.

What do you already know about the library?

What is it exactly?

Research Library Background

Quality Matters

Research Submission

The research library contains references that inform and support the Quality Matters Rubric.

Required fields are noted in **red**.

Name of Submitter:

Ericka Hollis

Institution/Organization of Submitter's Affiliation:

University of Kentucky

Title of Publication:

Publication Year:

Author(s):

Select the General Standard(s):

- 1. Course Overview and Introduction: The overall design of the course is made clear to the learner at the beginning of the course.
- 2. Learning Objectives (Competencies): Learning objectives or competencies describe what learners will be able to do upon completion of the course.
- 3. Assessment and Measurement: Assessments are integral to the learning process and are designed to evaluate learner progress in achieving the stated learning objectives or mastering the competencies.
